

PRODUCT INFORMATION

PRODUCT: WATER PUMP LUBE

PART NO.: C1012C

FUNCTION AND APPLICATION: A water soluble oil lubricant with corrosion inhibitors compounded to lubricate and protect metals in automotive cooling systems.

OUTSTANDING PROPERTIES: Penetrates all working parts of the water pump. Helps to stop squeaking, chattering and squealing caused by dry seals. Constant lubrication prevents seals from deterioration. Keeps entire cooling system cleaner and free from dirt. Reduces foaming which increases heat transfer and inhibits evaporation of coolant.

USE DIRECTIONS: Pour entire contents of can into cooling system. Use after installing new or rebuilt water pump. If cooling system is dirty or rusted, clean system first. **NOTE:** Used anti-freeze/coolant and radiator fluids may be considered hazardous in some areas. Dispose of in sanitary sewer system where permitted. Never pour onto ground or into storm or septic sewer systems. (See DISPOSAL below) For extra capacity systems, use two cans of product.

PRODUCT LIMITATIONS: Will not seal existing leaks in cooling systems. Must be replenished if coolant is partially or totally lost.

PRECAUTIONS: View MSDS at www.gunk.ca

STORAGE & HANDLING: Store in a cool place below 50°C, away from acids, and oxidizing agents. The wearing of contact lenses while working with this product is inadvisable. Keep away from children and animals.

DISPOSAL: Safeguard our environment. Use and dispose of product, container, residue and unused anti-freeze/coolant and radiator fluids in accordance with all local, provincial, and federal laws and regulations. Where permitted, dispose of in sanitary sewer systems. Never pour onto ground or into storm sewer systems.

PACKAGING: 325mL can with pull-tab top, packed 12 per case.

U.P.C. CODE: 0-60959-02817-3

WEIGHT PER CASE: 10 lbs. 4.54 kg

CASE SIZE: 11 X 8.25 X 5.5
