

PRODUCT INFORMATION

PRODUCT: STEER-SEAL

PART NO.: M1712C

FUNCTION AND APPLICATION: This product is added to standard powersteering fluid to swell seals and provide additional high-pressure lubrication. This product will help stop leaks and minimize noise and squealing in power steering units.

OUTSTANDING PROPERTIES: STEER-SEAL will stop leaks and delay replacement or repair of many power steering units by swelling seals and providing high pressure lubrication. STEER-SEAL contains a super high pressure lubricant, which reduces bearing, piston and valve noise and wear. STEER-SEAL makes steering easier, quieter and smoother.

USE DIRECTIONS: Add 50ml to 100ml to the power steering unit. Do not overfill reservoir. A second treatment may be necessary if a leak fails to stop after the first application. If a second application is unsuccessful, mechanical repair is indicated.

PRODUCT LIMITATIONS: Will not repair cracked, broken or severely worn seals. Will not repair worn power steering hoses.

PRECAUTIONS: View MSDS at www.gunk.ca.

STORAGE & HANDLING: Store in a cool place below 50°C away from acids, ignition sources and oxidizing agents. Wearing contact lenses while working with this product is inadvisable. Keep away from children and animals.

DISPOSAL: Safeguard our environment. Dispose of container, residue, and excess product in accordance with all federal, provincial and local laws and regulations.

PACKAGING: 350ml plastic bottle with c/r cap, packed 12 per case.

U.P.C. CODE: 0-60959-13171-2

WEIGHT PER CASE: 10 lbs. 4.54 kg

CASE SIZE: 10 x 7 x 9
