

PRODUCT INFORMATION

PRODUCT: EXHAUST MEDIC

PART NO.: M5512C

FUNCTION AND APPLICATION: A highly concentrated formulation designed to reduce carbon monoxide, hydrocarbons and nitrogen oxide emissions. It will effectively treat the entire fuel system including fuel tanks and lines, intake valves, combustion chambers, fuel injectors, exhaust system and catalyts.

OUTSTANDING PROPERTIES: A clean fuel system emits fewer pollutants than a dirty system, which will cause an engine to waste fuel, run at lower efficiency and power. Exhaust Medic's highly concentrated formulation will effectively treat the entire fuel system including fuel tanks and lines, intake valves, combustion chambers, fuel injectors, exhaust system and catalyst. Will not harm catalytic converters or oxygen sensors. May be used on gas or diesel engines. Contains no alcohol.

USE DIRECTIONS: Add entire contents of bottle to almost empty fuel tank and fill with fuel. Do not refuel until tank is almost empty. For an extremely dirty fuel system, a second treatment may be required. Treats up to 56 litres.

PRECAUTIONS: View MSDS at www.gunk.ca.

STORAGE & HANDLING: Store in a cool place below 50°C away from acids, ignition sources and oxidizing agents. Keep away from open flame or sparks. Use with adequate ventilation. Wearing contact lenses while working with this product is inadvisable. Keep away from children and animals.

DISPOSAL: Safeguard our environment. Use and dispose of product, container and residue in accordance with all federal, provincial and local laws and regulations.

PACKAGING: 350ml plastic bottle with c/r cap.

U.P.C. CODE: 0-60959-02715-2

WEIGHT PER CASE: 10 lbs. 4.54 kg

CASE SIZE: 10 x 7 x 9
